C SERIES INSTRUCTIONS

INSTALLATION

Cut hole size for desired dispenser. To determine proper hole diameter refer to specifications.

Fasten mounting ring securely over hole with the supplied mounting hardware.

Place dispenser into hole. Align ear tabs on dispenser to openings on mounting ring. Rotate dispenser one quarter turn clockwise to secure to counter.

NOTE: This unit is self supported by mounting ring. No additional support is needed when mounting in a horizontal position.

ADJUSTMENT

Remove dispenser from counter by rotating counterclockwise and pulling from hole.

Loosen locking screw, and load cups into dispenser.

Turn collar counterclockwise until adjustment clips hold cups firmly in place. Tighten locking screw. **DO NOT BEND CLIPS BY HAND!**

NOTE: For proper operation, cups should dispense from middle of adjustment clips.

MAINTENANCE

Remove spring assembly by rotating plastic base clockwise until tabs are released from window. Pull bottom out carefully.

Remove spring and cup holder., Wash all parts with warm soapy water to remove dirt and wax build up. Do not bend the adjustment clips by hand.

Reassemble unit by inserting cup holder, spring and bottom, making sure tabs snap into windows. Be sure to check adjustment before reinstalling.
