Cold Drink

COMPACT SIZE, HIGH PERFORMANCE

Cold Drink

Cold drinks dispenser
for all business

Serve your cold drinks with style and ease, the most innovative cooler in the sector, a perfect machine to cool any kind of beverage.

Select your capacity

12L or **20L**

Temperature always
under control
0°C - 10°C

World-Class technology for a perfect drink.

Drink temperature is important when it comes to flavor, for most people, right temperature can enhance it.

Our cold drink is **equipped with a user-friendly digital temperature control** that allows to adjust the cooling temperature between 0°C - 10°C to ensuring your beverage is served at the perfect temperature.

Mix & Quality

Its continuous rotary system keeps the product well mixed and consistently blended for the best cold drink experience.

Push&Flow tap

You can serve your drinks with only one hand, just press the glass against the tap to get the drink. It features high level of hygiene and simple to dismantle and clean.

Enhanced Cleaning process

Features an easy bowl release system that, without the need for any tools, decreases time spent during assembly and disassembly process.

Easy to Cold

Easy to use two-switch control panel. There is a mixer switch and cooling switch, simply flipping up this two switches starts the mixer motor and begins the cooling process.

Durable Design

Made of hard and resistant plastic, ensures long life cycle in your premises. The plastic parts won't rust like metal drink dispensers, keeping its professional appearance.

Right Temperature, Boost Flavour

For most people, right temperature can enhance flavours. It is equipped with a digital temperature control that allows to adjust the cooling temperature between 0°C - 10°C

Crystal Clear Bowls

The unit features durable, crystal clear polycarbonate bowls. Maximize the visibility while minimizes the risk of breakage ensuring many years of use.
